Madeline Jannotta, user experience researcher, Trading Technologies International, Inc.

Madeline Jannotta, 27, was hired as a user experience researcher at Trading Technologies International, Inc. She will be responsible for analyzing and creating use cases for the company's flagship platform, X_TRADER. Prior to TT, Jannotta worked in the user experience department at Sears and was a UX specialist for Scripps Network. Jannotta has a bachelor's degree from Cornell University and a Master's degree from New York University.

Chicago Tribune 'Moving on Up'

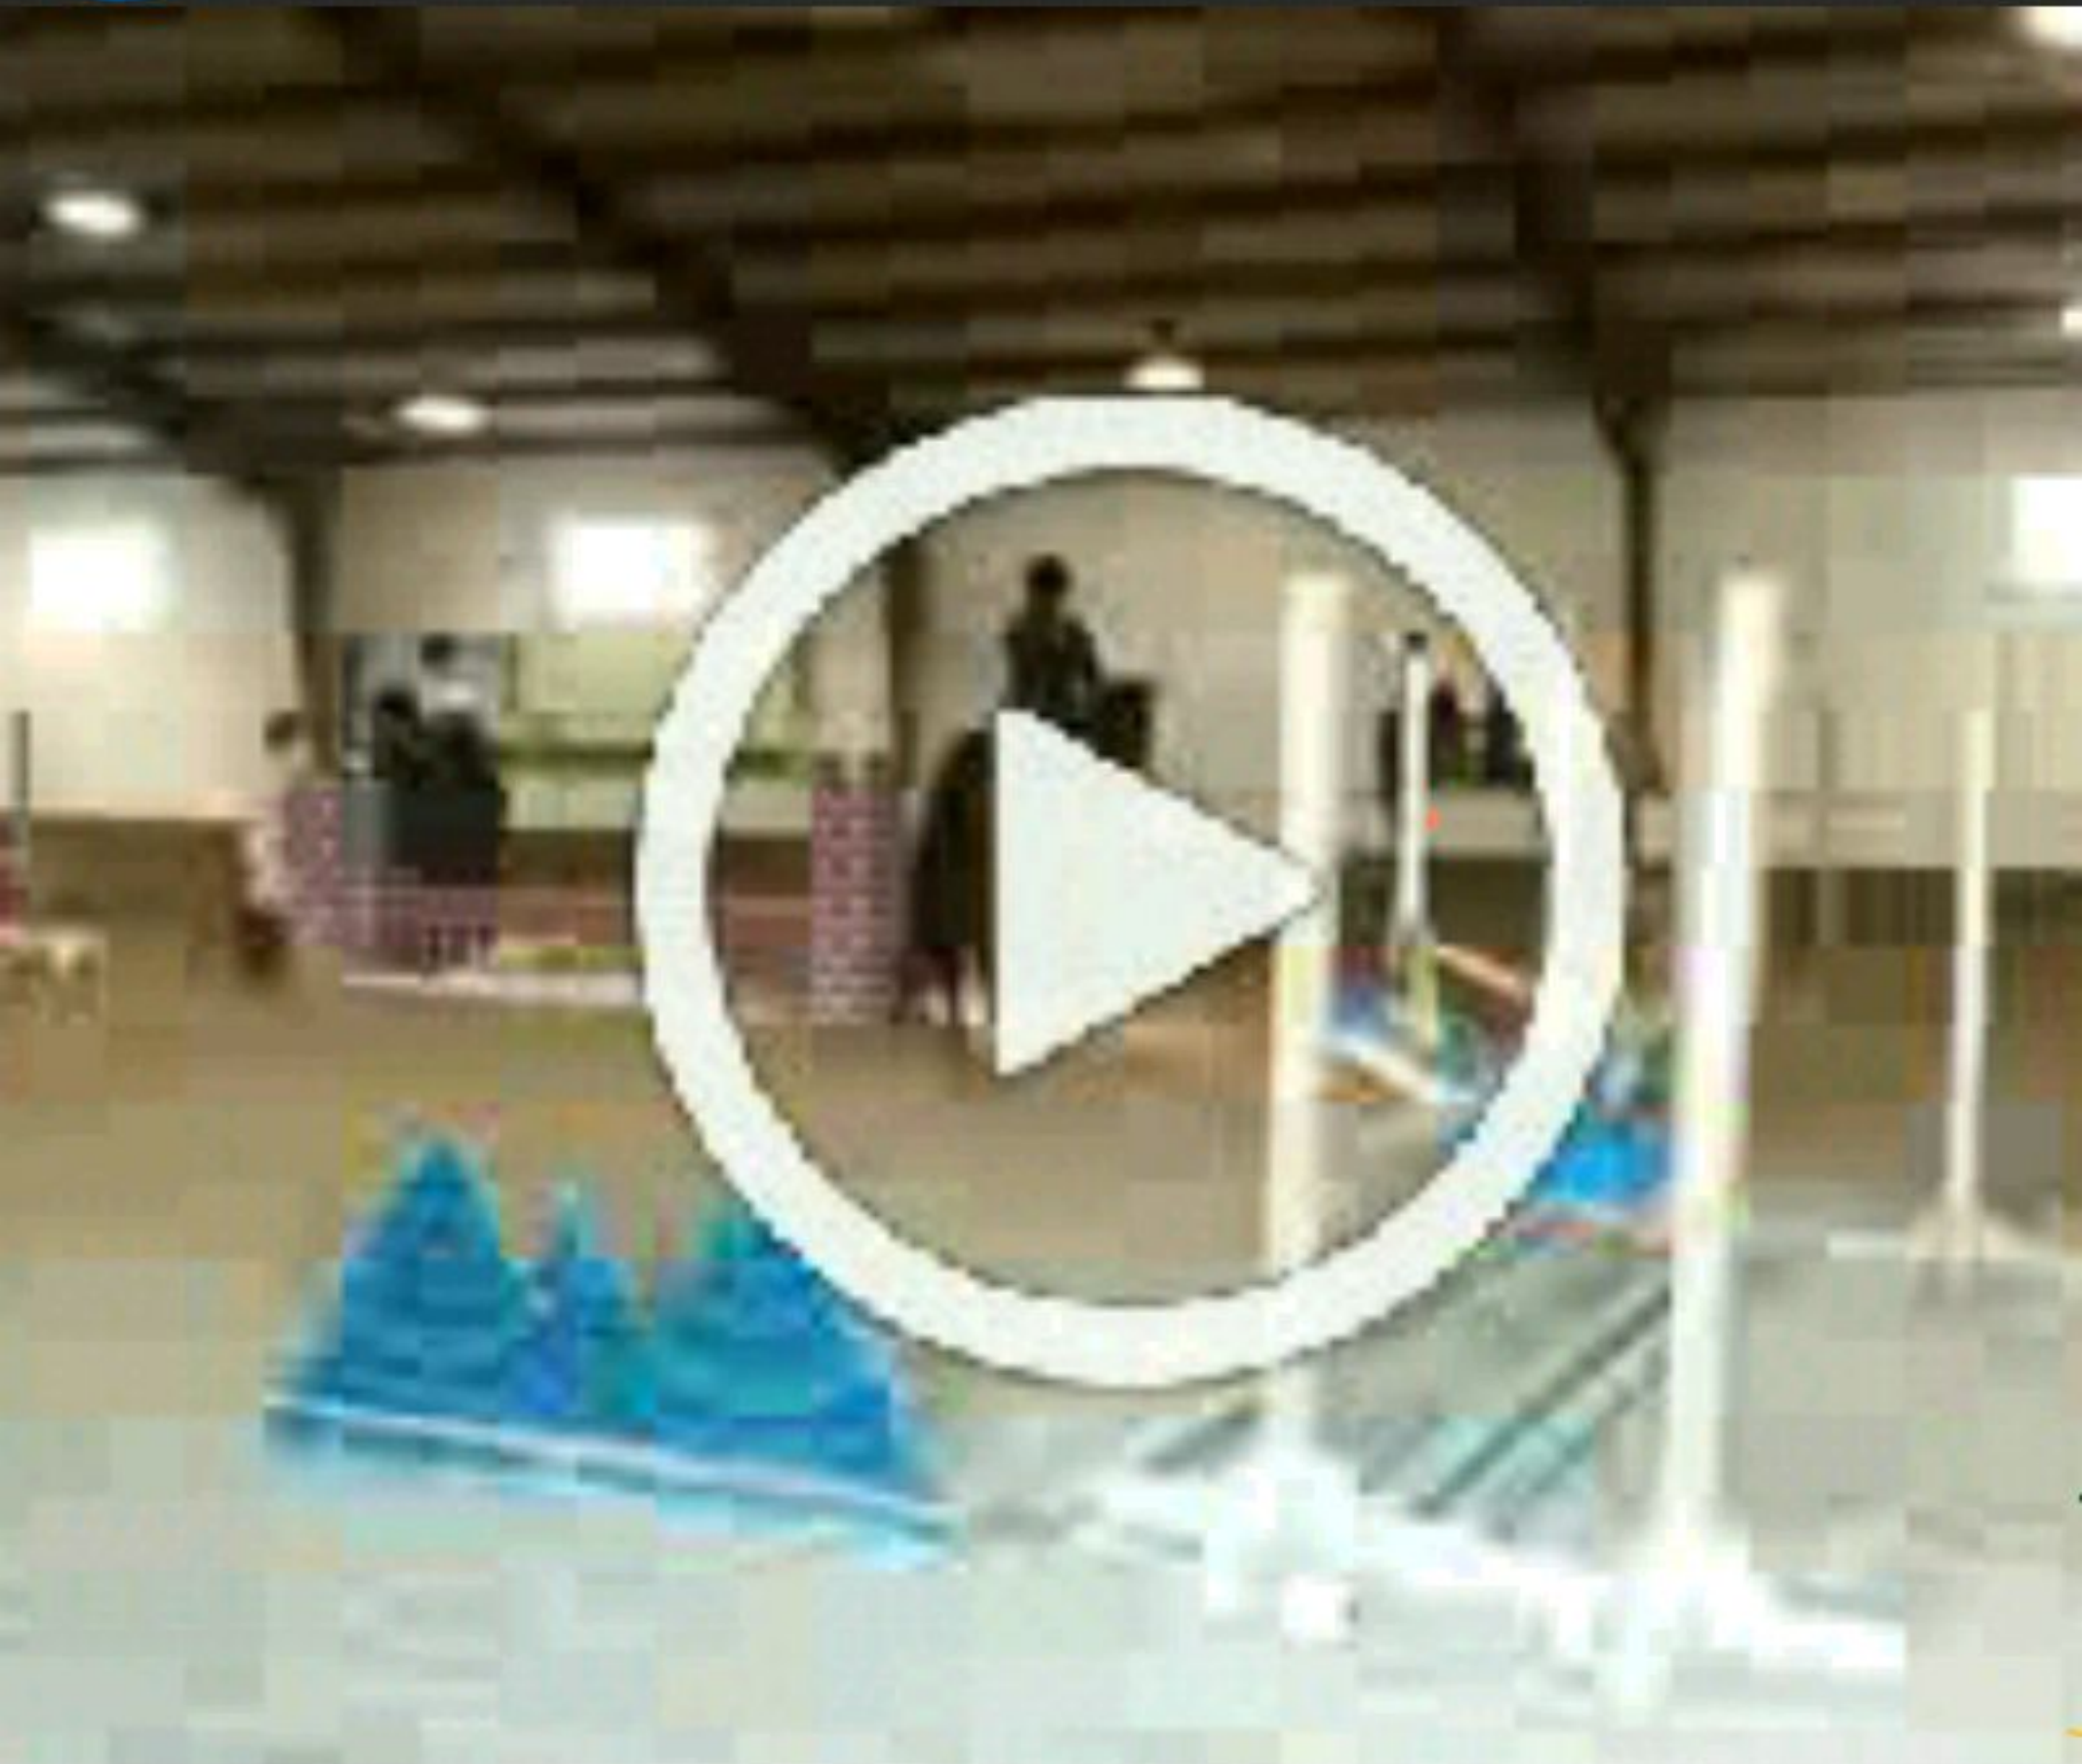

1.1.2013

Starting
the new year
off with
a BANG!
My face
makes the
news!

Lil' Abner!

1.19.13

Me and 'Abner' jumping 2'6"
in our first lesson together!

So get another (and hopefully  final ) attempt at curating a digital journal on my Galaxy Note tab.

The previous pages contain some images and moments in time that are representative of some of the many things going on in the story of my present life.

The hope is to use the following pages as a sort of roving repository of all of my thoughts, musings, accomplishments, ideas, and any other interesting tidbits worth documenting. The coming months have a lot in store, so here's to embracing the unknown!

Should all go as planned, 😊 ☁️
the next year will bring:

- a wedding
- move to our first new home
- continued chaos in my new job at IT
- a new horse
- honeymoon to French Polynesia
- a bunch of other shit I have no idea is going to happen...

I'll keep my notes, drawings, ideas, photos, videos, and whatever else here as best I can, to help me to remember and relish this time.
